December 2017

Dear Friends,

In these days of electronic, high tech communication, Friends of Man remains faithful to person-to-person exchanges. We don't have a phone menu, we do make calls and actually speak to referring professionals and applicants – and we enjoy and benefit from the human contact!

Likewise we think of you, our donors as individuals who have very focused and meaningful charitable intentions. You're 'present' and have 'presence' in our office when we screen an application, when we ask questions about 'other available resources,' or when we call a physician to be sure that a medical or mobility request is appropriate and really needed by the applicant. Your trust is respected at all stages of the process, and especially before we write checks to vendors to pay for assistance that we've approved.

As I'm sure you know, Friends of Man uses **100%** of your donations only for charitable assistance. All administrative costs and expenses are paid by the volunteers, and no one gets a salary. Your tax-deductible gift always has full value for its intended purpose.

Our enclosed Year-End Update gives you a picture of some of the results of your support. During the year we've helped children, adults, elderly and disabled people, with a wide range of assistance.

We write to you only twice a year because we respect your privacy, and we consider frequent solicitations to be intrusive and annoying. And we respect the privacy of your personal information – which remains confidential and is never shared.

Thank you for being part of Friends of Man – a most important part! Please continue your support – it is deeply appreciated. Be assured that your donation will be used wisely to bring help to someone who cannot otherwise find the assistance that they need.

All the volunteers join me in sending you warm wishes for the holidays!

Sincerely,

Stuart A. Witkin, President

Officers

Stuart A. Witkin, President
Arthur A. Belefonte, Vice President
Marlon R. Neely, D.V.M., Vice President
